They called us.

THE FORENSIC ACCOUNTING GROUP, INC. specializes in providing investigative accounting, damage calculation, due diligence review, business valuation, claim investigation and expert witness services to attorneys, corporate clients and insurance companies. We have performed many extensive engagements for the hotel industry and consider our firm to be in the forefront of forensic accounting techniques.

The quality of our service and our technical proficiency is commensurate with that of the largest certified public accounting firms as Warren M. Schneider and Raymond R. Ciccone were both trained in national accounting firms. Our clients desire attention from a smaller firm that offers personalized service from the firm's partners. Therefore, we operate within a framework that enables us to be exceptionally responsive to our clients while delivering the highest quality services in a cost effective manner.
